

Testimonial – Brian Halliday Advanced Mind

Six months ago I attended Brian's Mind Persuasion Course. I have been on many sales related courses but this was completely different and I noticed instant results.

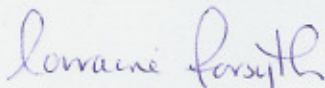

After the two days I was amazed by the after affects of the course. I don't know how but I felt something had changed inside me.... I felt more confident and had more energy. The following month my sales **doubled** immediately.

I had been having some problems selling to certain members of the opposite sex. I felt they were talking down to me and weren't taking me seriously. Using the material from the course the problems have disappeared and their behavior towards me has completely changed.

Six months on and I still feel motivated and focused. Plus my sales have steadily increased throughout the whole period by about 10% each month. Sales seem to come quicker and easier these days.

Working with Brian has done me a lot of good personally as well as for the company.

I recommend anyone to consider Brian's programme's.
